## FROM THE DESIGN TEAM

● Chris McVeigh traveled all the way from his native Canada to become a LEGO® designer at LEGO HQ in Billund, Denmark and this Bird of Paradise set is his first model in the LEGO Botanical range. Chris is particularly proud of the model's repositionable flowers and the fact that the model sways just like a real plant when placed in a light breeze.

## MOT DE L'ÉQUIPE DE CONCEPTION

● Chris McVeigh a quitté son Canada natal pour devenir un concepteur LEGO® au siège social de LEGO à Billund, au Danemark, et l'ensemble L'oiseau de paradis est son premier modèle dans la collection botanique LEGO. Chris est particulièrement fier des fleurs mobiles et du fait que le modèle oscille comme une vraie plante lorsqu'il est exposé à une légère brise.

## IMPRESIONES DEL EQUIPO DE DISEÑO

● Chris McVeigh emprendió el largo viaje desde su natal Canadá hasta la sede central de LEGO® en Billund (Dinamarca) para convertirse en diseñador de LEGO, y el set Ave del Paraíso representó su debut en la colección LEGO Botanical. Chris se siente particularmente orgulloso de las flores repositionables del modelo y del hecho de que este se mece tal como la planta de verdad bajo una ligera brisa.

## STRELITZIA REGINAE

● This stunning flowering plant is indigenous to South Africa and can grow up to 6.5 feet (2 meters) tall. It produces a brilliant orange plume-like flower that resembles the head of a bird, which inspired the plant's more colloquial names, Bird of Paradise, or Crane Flower. The brilliant beauty of its flower tends to leave a lasting impression on anyone who sees it during their tropical travels.

## STRELITZIA REGINAE

● Cette superbe plante à fleurs est indigène à l'Afrique du Sud et peut atteindre 2 mètres de hauteur. Elle produit une fleur orange vif qui ressemble à la tête d'un oiseau ornée d'une huppe, ce qui lui a valu le nom commun « oiseau de paradis ». La beauté éclatante de sa fleur laisse un souvenir impérissable à tous ceux qui la croisent au cours de leurs voyages tropicaux.

## STRELITZIA REGINAE

● Esta impresionante planta con flores es nativa del sur de África y puede alcanzar una altura de hasta 2 m. Produce una flor con forma de pluma de color naranja brillante que parece la cabeza de un ave, hecho que ha inspirado sus nombres más coloquiales: *Ave del Paraíso* y *flor grulla*. La llamativa belleza de esta flor suele dejar una impresión imborrable en aquellos que la contemplan en sus viajes a regiones tropicales.
